

THE NEW EXPLANAR® JUNIOR

Golf Training System

EXPLANAR JUNIOR - IT'S AWESOME, GUARANTEED!

GOLF HAS NEVER BEEN THIS EASY! LEARNING HAS NEVER BEEN SO MUCH FUN! SET YOUR CHILD ON THE ROAD TO A SWING FOR LIFE!

EXPLANAR JUNIOR IS THE ALL-IN-ONE LEARNING,
TRAINING AND GOLF FITNESS SYSTEM!

"Unquestionably the Explanar Junior will ingrain the correct movement quicker than anything out there. The weighted Power Roller will strengthen their muscles and Explanar will give them an instant understanding of what the golf swing feels like. Nothing will give a child a better start in life than the Explanar.

I use Explanar everyday at my School in Las Vegas and my students love it."

GOLF JUST GOT EASY™

Let Explanar give your child the best start of their golfing life. Would you let your child wear ill fitting shoes, learn to ride a bike without stabilisers or learn to swim without water-wings? With Explanar, boys and girls can have fun learning to swing within the protection of plane, whilst at the same time training their golfing muscles to develop a powerful, correct and consistent motion. No wonder Explanar is now used by Teaching Professionals across the World.

Designed for children 3ft - 5ft (1.1m - 1.5m), approx' 4 - 11 years of age

THE PLANE FIN™

is an essential reference point, it will act as an indicator as to whether or not you are swinging on your optimum plane.

THE POWER ROLLER™

(not attached) trains/retrains and builds the golfing muscles, creating a more dynamic & athletic swing.

THE RADIAL STANCE MAT™

is integral and enables you to practice intentional draw and fade shots

HOW THE EXPLANAR® WORKS

The Explanar is used in conjunction with the weighted Power Roller™. Step inside the Explanar, rest the Power Roller on the hoop and take your grip and stance in the centre of the Explanar with the Power Roller in the central ball position. The Explanar is then adjusted to the correct angle in order that you can swing the Power Roller on your optimum swing plane.
